martin

Jose Juan Martin
Digital Compositor / Matte Painter

I am a Junior Compositor looking for a job to improve my technical skills and get more experience working in the VFX pipeline. I am a very creative person and thanks to my background experience working as a Graphics Designer for almost 12 years, I have acquired good artistic skills. My strength is observation, structuring a composition and looking at the finer detail.

I am also an enthusiastic and self motivated hard worker with critical eye to detail who enjoys working in a team and is used to work under pressure. I consider myself a quick learner and I know how to prioritize my work to achieve the best possible results.
